

OBJECTIVE

Hello! I am asking for your vote to represent you on WEPOA's BOD. As a property owner since 2004, and full-time resident, I care VERY much about TWE. I have the experience and skills and have accomplished much in my current role on the WEPOA BOD. Finally, I can provide BOD continuity.

PERSONAL

My husband Wayne and I have been married for over 29 years, and between us we have 3 adult sons and 6 grandchildren. We travel extensively world-wide but mostly LOVE to entertain family and many friends right here at 'Camp Peppers'. We live life to the fullest and thoroughly enjoy all that TWE and Smith Mountain Lake have to offer – Incredible golf; fantastic Club amenities and caring staff; the spirited animals at The Barn; loads of fun boating, tubing, skiing, swimming and fishing on SML - and above all else - our neighbors and friends - we live in paradise!

IF ELECTED

I could continue in the Director of Communications role if that is what I am called to do, or I could fill other BOD positions. My personal objective is to sustain that 'WOW factor' when we drive through, ride our bikes, or walk around TWE campus we are so blessed to call home. I would also support creation of a 'United-TWE' organization with seasoned representatives from each association who would work with local government officials (e.g., Franklin County Board of Supervisors) and service providers (e.g., Cool Branch) to better meet our community's needs.

EXPERIENCE

Current:

- I serve as the Communications Director on the WEPOA BOD. The BOD recruited me for this job after the BOD had already been established. As the Communications Director, I created and maintain the POA website <https://twepoa.com/> as well as draft, build BOD consensus for, and publish the WEPOA Newsletters. Controversial topics are not fun to write about (please don't shoot the messenger!). As a BOD officer, I also collaborate across all POA business lines to help build and execute various strategies.
- I support numerous other ad hoc efforts, such as:
 - I created the Welcoming Committee and work with them to write/update the Community Booklet.
 - I promote increased use of automated tools, (still in progress) to minimize POA management costs, improve record-keeping and significantly reduce the level of effort for volunteers. This work was previously accomplished by paid staff in Willard Corporation. There are about 500 lots plus common property in WEPOA - that's quite a bit to manage!!
 - I support membership 'signing events' and 'behind the scenes work' (administering membership joiners, creating BOD plans with volunteer job descriptions, etc.), and I reply to WEPOAcontact@gmail.com emails.

Past:

- **President of 2 homeowners associations (HOA):**
 - (1989-1992) Hawkins Farm in Columbia, MD.
 - (1982-1988) Coventry at Crofton, Crofton, MD.
- **(1975-2008) Program Manager** in the U.S. Government (USG), where I built and managed large programs/budgets, collaborated with national and international partners, and recruited/led multi-disciplined teams to meet complex mission needs.
- **(2008-2019) Senior Vice President of TeleniX Corporation**, Columbia, MD
